Affordable beginning piano lessons for students of all ages. BS Electronic Music, University of Illinois (1983). Former Hawai'i DOE elementary school teacher.

Books for Beginners Ages 7 to 9 Faber Piano Adventures® Primer Level

Faber Piano Adventures books are available from several online book distributors such as Amazon.com as well as direct from the publisher here:

<https://pianoadventures.com/browse/libraries/piano-adventures/basic-piano-adventures/>

See the following pages for Primer level books.

In addition to the curriculum books, you will need a composition book to keep track of lesson comments and instructions.

These usually can be acquired for less than \$2 at drugstores, Walmart, office supply stores and other retailers.

Be aware that there are two types of lined Composition books: "wide rule" and "college rule" which specify how far apart are the lines on a page. I recommend "wide rule" books for young children and older folks with less than stellar eyesight. Otherwise, "college rule" is a good choice.

Click on the titles below while connected to the internet to read more about each item.

Purchase these books to start.
